Meet Acorn Finance, Our Technology Partner

Acorn Finance is a technology platform that connects your customers to better financing options to increase your ability to close deals. Acorn Finance is led by a team of senior executives with decades of contracting, banking and financial services experience.

- **100% online and secure**
- **60 second application**
- **Soft credit pull to show pre-qualified offers**
- **Email notifications for status changes**
(When a customer receives offers and has been approved to receive funding.)

Who provides the loans?

Loans are provided by national lenders and charges are paid by the customer, so there are no hidden fees to offer financing through Acorn Finance. Here are some of the lenders your customers will be able to choose from:

Customer Application Process

The salesperson needs to send the customer a link in order to start the application process. The customer will either receive the "Offer Financing" email or an estimate with a link to apply.
